Subject: Re: Oyster Issue

Hello Brenda, I would suggest starting with Ryan Crim, cc'd here. If he can't answer your question he may be able to point you to someone who can.

Hi Brenda,

Barry Berejikian is the manager at the NMF research facility at Manchester.

Barry, Brenda is one of our Unit Managers here. She had a call today regarding an oyster mortality issue in Puget Sound and would perhaps like to get access to one or more of your scientists (or colleagues) with expertise in this area. I figured that with the new oyster facility, you might have a good suggestion or two.

Thanks,

Barry
